

**Response to Consultations on UKADS by HBFoE**

[To:airspace.modernisation@caa.co.uk](mailto:airspace.modernisation@caa.co.uk)

From: Maggie Thorburn

I am making a brief response on behalf of Hounslow Borough Friends of the Earth, a local community/environmental organisation in Greater London (South East England).

If relevant, we are happy for this and my name to be made public.

**Airspace modernisation: Consultation on draft guidance for the UK Airspace Design and Coordination Services (CAP 3158)**

We endorse the comments by:

Joanna Waddy for Richmond and Twickenham Friends of the Earth. Response 612867927

and

Paul Beckford for HACAN. Response 702438675

In particular we would reinforce the comments that the voice of communities is being sacrificed in the interests of the aviation industry and its supporters. Also, we object to the removal of environmental assessment. We would like to see community and environmental organisation representation on the advisory board of UKADS.

**Airspace modernisation: Consultation on the requirements for a UK Airspace Coordination Service and associated guidance CAP 3159**

We endorse the comments by Paul Beckford for HACAN. Response 120527870

Regards

Maggie Thorburn  
HBFoE Coordinator
